Motor-driven cable reel

Our motor-driven cable reels ensure a reliable supply of power and data to mobile consumers. For every installation situation, we configure the optimal solution with the appropriate drive and accessories.

Fields of application

- Mobile cranes & excavators
- Agricultural machinery
- Ports & container handling
- Surface mining and materials handling
- Crane and lifting technology
- Waste incineration
- Plant engineering
- Environmental technology

Technical data:

- Cable length up to 1,000 m
- Integration of fiber optic cables possible
- Rotary unions for liquid and gaseous media
- High-quality corrosion protection: galvanized steel, stainless steel, or C5 coating
- protection rating: IP55 (Standard), IP65, IP66, IP67 and further options available on request

Your benefits at a glance

- Maximum flexibility for complex applications, and reliable even under extreme conditions
- Future-proof and retrofit-capable – low-maintenance and long-lasting

Drive types

- Brake motors (standstill motors)
- Frequency converter (VFD) drives
- Hydraulic/pneumatic drives
- Magnetic and turbo couplings with three-phase motors
- Counterweight drive systems

We energize mobility. Worldwide.
